8. The reporting requirements of Section 5-117 of the Public Utilities Act do not apply to the Cooperative for a number of reasons, not the least of which is that the Cooperative is specifically excluded as a company “with less than 100,000 customers.” While Section 5-117 contains the term “any other supplier,” those words cannot impose the reporting requirement on a company that is already specifically excluded by the other language of the statute.

The Cooperative has and will continue to work with the Illinois Commerce Commission staff through the Association of Illinois Electric Cooperatives (“AIEC”), in an attempt to develop methods of tracking and a scope of information that the Cooperative can submit in the future on a voluntary basis.
